SHIDEHARA IN ARTICLE SAYS JAPS FRIENDLY

(By Associated Press)

CAMBRIDGE, Mass., Nov. 8.—Whatever the problems of the armament conference, an agreement of limitation of naval armament ought to be a comparatively simple matter, says Ambassador Shidehara, of Japan, one of that country's delegates, writing in the current issue of the Harvard Crimson.

The ambassador bases his statement on the conclusion that the world has only three great naval powers, each on a different continent, and with "none of the real interests of one conflicting vitally with the others."

At the same time the ambassador takes the opportunity to outline Japan's case at the arms conference, her relation to China and the far-eastern situation, as well as her place in the world. He writes:

"The Japanese delegation come to the Washington conference confident that the nations assembled there will achieve a substantial measure of success and that valuable understandings will result, enabling the several principal nations to live in the future with less suspicion and distrust, and consequent armament. This is the least that can be expected. But we Japanese are hoping that, as President Harding said at Yorktown on October 19, 'The time has come when there must be recognition of essential co-operation among nations, devoted, each of them, to its own peculiar national way, to the common good, the progress, the advancement of all humankind.'"

SOVIETS NOW Milder TOWARD NEW ARRIVALS

(By Associated Press)

ASTRAKHAN, Russia, Nov. 8.—The Russian soviet government's new attitude toward foreigners is apparent here. It is far milder than in newly bolshevized Georgia. Here Americans are welcomed unquestioned.

There is no demanding of passports, no summons to go before a police and there are no Red soldiers in evidence to bully the civil population. Even refugees from the famine district straggling along the waterfronts are unhindered in their movements, except when the boats are departing and too many would-be travelers are trying to rush aboard. A steady stream of refugees from Ukraine are being moved down to the Don and Kuban regions where there is more food. They are loaded on river boats, transferred at the delta of the Volga to Caspian sea steamers and landed at Petrovsk. Some, having been persuaded to take the train, go as workers to the well-lighted oil-less Baku fields.

SPRING VALLEY RANCHER FINDS ARTESIAN FLOW

H. L. Anderson, who resides in the northern end of Spring valley, was an Ely visitor during the week and reports that he has been successful in bringing in an artesian flow of warm water at a depth of 510 feet. The flow is small at the present time but will be sufficient for ranch and domestic purposes and also sufficient to irrigate a garden. The well was driven through several strata of water before reaching a present depth, but none of these flows came to the surface. After passing the depth of 500 feet a new channel of water was struck which flows from a pine nine feet above the surface. The well at that depth was going down in slate or shale, and Mr. Anderson is of the opinion that with greater depth the flow will be greatly increased. The water is warm, which also leads Mr. Anderson to believe that he has struck a regular artesian flow, which will increase with depth. Work was temporarily suspended at the present time, but it is Mr. Anderson's intention to drill deeper in the near future.

AMUSEMENTS

FROZEN NORTH TALE AT BUTLER THEATRE TODAY

Noel Tonah, who is one of a pair of Indians who made the famous and record-breaking trip of 350 miles in a canoe from Bangor, Maine, to Provincetown, Mass., recently, is also acquiring considerable fame as a motion picture actor.

It will be remembered that the newspaper dispatches all over the country chronicled the trip of Tonah and his pal down the Penobscot river out into the Atlantic ocean and down into the Provincetown harbor in a frail birchbark canoe. They made the trip to attend the Pilgrim celebration being held there.

Local motion picture fans will have an opportunity to see Tonah and also his trusty and famous birch canoe in which the trip was made when they view the latest James Oliver Curwood story, "God's Country and the Law," which comes to the Butler theatre today.

"God's Country and the Law" is one of the best "fugue" stories ever put on the screen and the picturization is being interpreted by an all-star cast headed by the vivacious and popular Gladys Leslie.

Tomorrow, "Penny of the Top Hill Trail," with Wheeler Oakman and Beale Love, and a two-reel comedy.

LACK MEDICINE RUSS HOSPITAL ACCENTUATED

(By Associated Press)

TSARITZIN, Russia, Nov. 8.—The lack of medicine in Russian hospitals becomes accentuated here. It is even worse than further down the Volga. Tsaritzin has five hospitals, none of which has a single grain of quinine or any of the other simple medicines, nor have they money with which to purchase nourishing food for their patients.

At the second soviet hospital for typhus patients established here in a converted private residence there are 50 patients with a lone woman doctor in charge and with a few servant girls as nurses. She is totally without olive oil, camphor, alcohol, bed clothing or fresh garments. In the first soviet hospital, a the outskirts of the city, there are 150 patients, but no medicines, no ice, no soap, no carbolic acid for washing the germ-infested floors.

The daily food of the convalescents consists of one dish of hot soup, one-sixth of a pound of meat and three-quarters of a pound of bread.

Gold Boom Here HORNSILVER IS THE CAMP!

ORLEAN

The Orlean has cut the big gold ledge again on the 700. It's bigger and better and more wonderful than ever before. From now on the Orlean may be expected to rival the biggest gold mines in the state of Nevada, past or present, and is now the leader in a gold mining district whose influences will be felt throughout the whole world. A big advance in the price of this stock may be expected within a few days.

LUCKY BOY

The Lucky Boy, Harry McNamara president, has acquired a splendid property with ore on the dump and values running up to \$80 per ton. The Lucky Boy will begin operations very shortly.

MAY

The Hornsilver May has an exceptionally fine location and a splendid group of claims situated close in. The May has produced the finest high-grade gold specimens in the district and is destined to make a big noise. Treasury stock may be had at 5 cents a share. This opportunity will not be open long.

GOLDSMITH

The Goldsmith Divide Mining Company under an entirely new management has taken over a group of five claims in the Hornsilver district, and the wonderful showings of high-grade ore on every one of the claims indicates the making of a whale of a gold mine. The Goldsmith is listed on the San Francisco Stock Exchange and its shares at present prices will make a lot of money for the fellows who have the nerve to go and get them.

ROSETTA

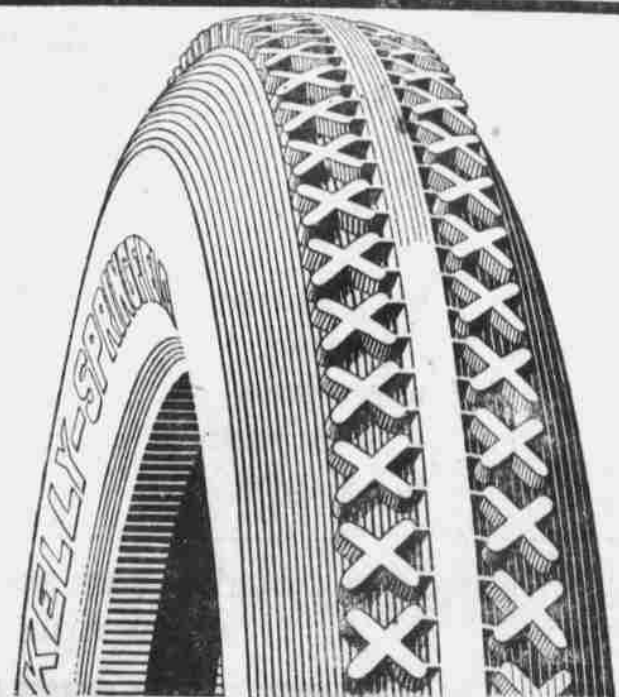

The Rosetta Divide Mining Company has two experienced men in the Hornsilver field sampling and examining a number of properties there. It is more than likely that they will close a deal within the next few days.

Hornsilver Red Top

This company is in process of organization and its shares are not yet on the market. There is on the property tied up for this company a most magnificent showing and a 50-ton shipment of \$100 ore is already on the dump.

A number of listed Divide companies are already in the field and we may expect to hear of some big deals within the next 10 days.
